EN-SCP4 (EU)

EURONET SMART CONTROL PANEL – 4"

4" Touch Scene Panel | Built-in Zigbee 3.0 Gateway

SCREEN **4.0" · 480×480**	OPERATING SYSTEM **Linux**
PROCESSOR **RK3308B**	WIRELESS **Wi-Fi + Zigbee**
VOICE **Alexa built-in**	MOUNTING **86mm wall box**

OVERVIEW

The EURONET Smart Control Panel 4" (EN-SCP4 EU) is a compact touch panel that replaces a standard wall switch and fits a standard 86mm in-wall box. Its 4.0-inch 480×480 capacitive screen runs on Linux with a Rockchip RK3308B processor, and a built-in Zigbee 3.0 gateway connects more than 80 Zigbee sub-devices, so lights, climate, access and scenes are controlled from one screen. Local Zigbee automation keeps running when the internet drops. Alexa is built in for voice control, with two microphones and a 1W speaker, and setup is done in the Euronet IoT App.

KEY FEATURES

Built-in Zigbee Gateway
Zigbee 3.0 gateway built in, so no separate hub is needed for basic device control and scene automation

Scene Control
Touch or voice triggers scenes across lighting, climate and access, replacing several wall switches

Alexa Built-in
Hands-free control of devices and scenes with two microphones and a 1W speaker, no smart speaker needed

Drop-in Fit
At 86 × 86 × 36.3mm with base it fits a standard 86mm in-wall box as a direct switch replacement

Always Responsive
Local Zigbee automation and LAN scene control keep running even when the internet connection drops

Easy Setup
Scan the code to log in, then configure the panel once from the Euronet IoT App on iOS and Android

TECHNICAL NOTE

EN-SCP4 (EU): 4.0-inch 480 × 480 multi-touch capacitive screen with anti-fingerprint coating, Linux OS, Rockchip RK3308B, 256MB RAM / 256MB storage. Wi-Fi 2.4GHz + Zigbee 3.0 gateway for 80+ sub-devices, Alexa built-in, 2 microphones, 1 × 1W speaker. Power AC 100V–240V, 50/60Hz, neutral wire required. 86 × 86 × 36.3mm, standard 86mm in-wall box. Operating 0°C to 40°C, 5–90% RH.

PRODUCT TECHNICAL SPECIFICATIONS

PARAMETER	SPECIFICATIONS
GENERAL	
Model	EN-SCP4 (EU)
Product Type	Smart control panel with Zigbee gateway
Operating System	Linux
App	Euronet IoT App (iOS & Android)
Login	Scan code · one-time configuration
Voice	Alexa built-in · online voice control
Control Methods	Touch screen · app · voice
DISPLAY	
Screen Size	4.0 inch
Resolution	480 × 480
Screen Type	Multi-touch capacitive anti-fingerprint coating
Wake / Sleep	Screen saver, screen off, voice or touch wake-up
Home Page	Weather, time, date, week and shortcut control
Shortcuts	2 custom switches on the home page
HARDWARE	
Processor	Rockchip RK3308B
CPU	Quad-core ARM Cortex-A35 · 1.3GHz
RAM	256MB
Storage	256MB
Microphones	2
Speaker	1 × 1W
Antennas	2 · built-in shell antenna

PARAMETER	SPECIFICATIONS
WIRELESS & GATEWAY	
Wi-Fi	2.4GHz (uplink)
Zigbee	Zigbee 3.0 gateway (downlink)
Zigbee Sub-devices	80+
Local Control	LAN device and scene control
Cross-gateway	Local linkage across gateways and protocols
OTA Updates	Supported
POWER	
Power Input	AC 100V–240V, 50/60Hz
Wiring	Live and neutral · neutral wire required
PHYSICAL & ENVIRONMENTAL	
Dimensions (with Base)	86 × 86 × 36.3mm
Dimensions (Without Base)	86 × 86 × 10.5mm
Mounting	Standard 86mm in-wall box
Operating Temperature	0°C to 40°C
Operating Humidity	5–90% RH, non-condensing
Weight	Not available
Certification	Not available
INSTALLATION & PACKAGING	
Installation	Qualified electrician, mains power off
In The Box	Panel, 4 screws, manual, installation instructions
