EN-VDP8

EURONET VIDEO DOOR PHONE – 7" Wi-Fi

1080p Outdoor Station | 7" Touch Monitor | App Answering

OUTDOOR CAMERA	1080p HD, 130°
NIGHT VISION	IR
INDOOR MONITOR	7" · 1024×600
OUTDOOR RATING	IP65
CONNECTIVITY	Wi-Fi + 4-wire
POWER SUPPLY	DC 12V / 2A

OVERVIEW

The EURONET EN-VDP8 is a complete Wi-Fi IP video door phone kit with a weatherproof IP65 outdoor station and a 7-inch indoor touch monitor. The outdoor 1080p HD camera has a 130° wide-angle lens and IR night vision, and visitor calls ring on the monitor and in the Euronet IoT App at the same time, so you can answer from anywhere. A dry-contact lock output releases a 12V strike or magnetic lock, such as the EN-ESL240A or EN-MLK600, from the monitor or phone. A single 4-wire bus links the two units, and a MicroSD slot stores snapshots and clips.

KEY FEATURES

Answer From Anywhere
Visitor calls ring on the 7-inch indoor monitor and the Euronet IoT App at the same time

See Who's There
1080p HD camera with a 130° wide-angle lens and IR night vision, even in complete darkness

One-Tap Unlock
Dry-contact output releases a 12V strike or magnetic lock from the monitor or from your phone

Weatherproof Build
IP65 outdoor station resists rain, dust and UV, and operates from -20°C to +60°C for year-round outdoor use

Snapshot & Record
Auto-captures every visitor in a snapshot log, with snapshots and video clips saved to a MicroSD card

Easy 4-Wire Install
A single 4-wire bus cable between outdoor and indoor unit, with a DC 12V / 2A adapter in the box

TECHNICAL NOTE

EN-VDP8 kit. Outdoor station: 1080p HD camera, 130° wide-angle lens, IR night vision, IP65, -20°C to +60°C. Indoor monitor: 7-inch capacitive touch, 1024 × 600, MicroSD slot, 0°C to +50°C. Wi-Fi 2.4GHz + 4-wire bus. Lock output: dry contact for a 12V electric strike or magnetic lock (EN-ESL240A / EN-MLK600). DC 12V / 2A adapter included. CE, FCC, RoHS.
