- Multi-User Support

PARAMETER	SPECIFICATION
Product Type	Dual-Lens 4G Smart Solar Camera
Resolution	3.0MP + 3.0MP (6MP Combined)
Network	4G SIM (No Wi-Fi)
Battery Capacity	10400mAh
Solar Panel	7W
Storage	MicroSD (Up to 256GB) + Cloud Storage
Motion Detection	PIR + Human Detection
Night Vision	Infrared Night Vision
Audio	Two-Way Audio
Installation	Wall Mount / Ceiling Mount

Main Features

- WiFi Connection • UHD Resolution
- Voice Communication • Cloud Storage
- Smart Connect • Motion Detection

Product Description

- 6 MP Resolution Optional
- Double-light design for enhanced image performance
- Dual-lens configuration
- Low illuminance imaging sensor for ultra-clear night vision
- H.265+ / H.264 support for high-quality image and low bandwidth usage
- 10400mAh battery for longer standby time
- 7W single-crystal silicon solar panel
- Photoelectric conversion efficiency up to 20 percent
- Low loss and long service life
- Supports Euronet IOT App
- Easy connection via QR code scanning
- Compatible with Android & iOS smartphones
- High-accuracy PIR + human shape detection to reduce false alarms
- Two-way audio communication
- Supports Cloud Storage and MicroSD Card Storage
